EPTT Town & Country Post Top Luminaires

Traditional

Carriage

Evolve® Town & Country™ post-top luminaires were first commercially introduced in early 1970's, coinciding with the widespread adoption of HPS streetlighting and standardized utility design practices. The design proved so popular that Utilities quickly asked for an LED version. This iconic design now has a new addition to the family. Current is pleased to introduce the Carriage top form factor that perfectly complements the original Traditional top.

Offered in two styles, classic Traditional and Carriage top styles.

Engineered, Designed and Assembled in the USA.

BABA compliant configurations available. Please contact factory to verify if specific configuration is compliant

Performance

Lumens	2,068-10,200
Distribution	Symmetric, Asymmetric
