

WET LOCATION LIGHTING SOLUTIONS

M

## **Current** <sup>©</sup>

# **FLOW**

**Flow** is a line of wet-rated rectilinear luminaires which shares similar design language as your favorite indoor Litecontrol products, offering design consistency across all of your indoor and outdoor configurations.

## Variable Intensity

TECHNOLOGY

Variable Intensity Technology is a simple method for specification of luminaire lumens and wattage to meet the exacting demands of each project. Vi Technology provides verifiable wattage for compliance with programs, agencies and state and local codes.

LITECONTROL

Machined aluminum housing end headers and end caps Closed-cell silicon gasketing Extruded acrylic diffusers

Flow is a capable solution for both indoor and outdoor environments, limited only by a designer's imagination.
