# Tetra®

The Innovator in LED  
Signage Lighting.

## Current Drives Innovation

For over 130 years, lighting innovations from Current has changed the way we see and light the world—for the brighter. Today, we deliver high efficiency, long-life LED lighting solutions that illuminate signs, streets and cities, promote brand visibility and ensure brilliant operational performance across a wide range of applications for years to come.

We light the world.

## Spreading the light Brilliantly.

Tetra®'s high-efficiency, longlife LED signage lighting systems deliver best-in-class performance for channel letter, cabinet sign and border lighting applications.

When compared with standard neon or fluorescent lamps, Tetra® LED systems provide significant energy cost reductions, easier installation, less frequent maintenance and more consistent brightness and uniformity across your signs.

## Then, Now, and Next

Tetra® comes from a lighting heritage that is unsurpassed. We developed the very first commercial LED in 1962. Since then, we have pioneered the use of LED solutions into the global phenomenon and the new universal lighting standard we see today.

## LightLine

Tetra® LightLine delivers exceptional performance in tight spaces where functional lighting is needed, with a versatile design for both individual and continuous row mounting. Its improved design minimizes gaps between fixtures, allows corner wrapping without jumper cables, and features a polycarbonate construction that protects against moisture, dust, and damage.

## Batten Gen 3

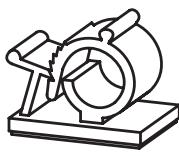

The Batten Gen 3 provides outstanding performance in tight spaces where practical lighting is essential, with a design that supports both individual mounting and continuous rows. Its improved design reduces gaps between fixtures and allows corner wrapping without the need for jumper cables.
