CX
COMMERCIAL LIGHTING CONTROL PANELS

NEED SUPPORT?
We now offer telephone startup for CX Single Panel

Telephone startup for CX Commercial Lighting Control Panels

As lighting controls expand in the market place and complexity of facility strategies for energy savings evolves, we hear the requests for assistance to startup CX Panels. We are now expanding the roles of our Technical Support staff to assist our customers in this endeavor.
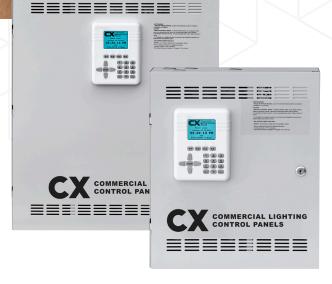

For a nominal fee, our Technical Support staff can assist on-site personnel with programming direction and best practices. Valuable information requested to help expedite the technician includes:

- Relay Schedule
- Sequence of Operations
- Bill of Material and/or any site condition information that can describe location of devices installed

Programming support for the CX Commercial Lighting Control Panel is a line item that can be added to an order up front or purchased as an add-on after installation.

Price - $300

To purchase, please contact our Technical Service Center at 1-800-888-8006 and follow the prompts to Tech Support > CX. A qualified support personnel will verify your need and instruct you on how to obtain a CX startup code.
