

# Lumination® LED Luminaire

## Endcap Cover Accessory

### IS Series

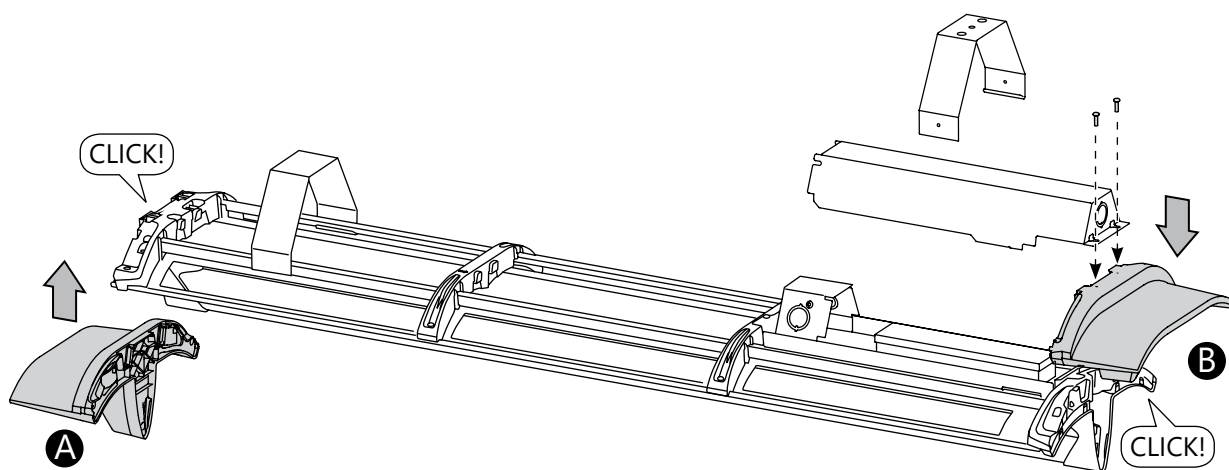

**A** Female end cap

**B** Male end cap

- ① The end caps are not identical. The clipping fixture is a female at one side (A) and a male at the other side (B).

- ② Push both end caps onto fixture. End cap A will snap on. End cap B will require two screws to secure.  
**NOTE:** Follow similar procedure for continuous run installations.
