

Industrial Wireguards

Install Instructions

NOTE: Components shown in images are representative only and may vary based on the configuration ordered.

- ⚠WARNING** Read instructions carefully and turn electricity off at main circuit breaker panel before beginning installation.
- ⚠WARNING** If any special control devices are used with this luminaire, follow the instructions carefully to assure full compliance with NEC requirements. If there are any questions, contact a qualified electrical contractor.
- ⚠WARNING** This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

INSTALLATION METHOD

STEP 1

Secure the wire guard to the fixture at each corner with clips and self-tap screws provided. Ensure the clip is facing downward and inserted into the fixture channels on both sides, such that the opening for the wire guard is on top.

NOTE:

Self-tap screws are provided to position anywhere along the fixture channels
