S Q U A R E®

AAL's Parkway Square family of architectural lighting products is a transitional, eclectic luminaire design, applicable for both traditional and modern architectural projects. The Parkway Square is constructed of high quality materials with options of stainless steel and copper, featuring a wide range of configurations for a variety of applications from pedestrian areas, building perimeters, streetscapes, store fronts and atriums.

Job site – Lake Elsinore Town Center, Lake Elsinore, California

OPTIMAL PERFORMANCE AND ENERGY EFFICIENCY

Precision engineering harnesses the power of today's brilliant, high-efficiency LED's to deliver maximum performance and reduce energy consumption.

Parkway Square presents a versatile approach to light delivery, emphasizing high performance, uniform illumination and flexibility in design with four distribution patterns available in a variety of standard color temperatures.

- Long lasting highly efficient LEDs
- Up to 5300 delivered lumens
- Up to 69 lumens per watt
- Three standard color temperatures: 5100K, 4200K or 3000K
- Standard IES distributions - Type 2, 3, 4, 5

QUALITY ENGINEERING

The Parkway Square stands above other traditional lanterns available on the market today. The quality tested AAL design provides a lifetime of energy efficient, trouble free operation and a long lasting LED optical system.

- IP66 optical system
- Internal surge protection
- 120-277 AC input voltage at 50/60Hz
- Upgrade Kit available for existing installations
- Integral thermal protection

Hoods

Parkway Square features three designer hoods, each with a distinct design statement, available in painted aluminum to match the fixture, or natural copper and stainless steel.

ANGLED HOOD - ANG *

STRAIGHT HOOD - STR

DOUBLE HOOD - DBL**

Screens

To customize the look of the luminaire, add a decorative screen in either a contemporary style such as Wheat or Infinity, or a more traditional style with Offset, Trio or Shutter. Submit your own design or logo to truly customize the luminaire. Each screen is created with a water laser to ensure smooth lines and consistency with each luminaire.
