

Curvista™

Architectural Exit Signs

High Quality and Performance with a Curve

- 1 Unique Elegance**
Die cast housing and matching canopy feature elegant curves for a distinguished appearance with timeless appeal.
- 2 Quality Design**
Mirrored clam shell design with ball snap interlock and retention “hinges” make installation and maintenance easy.
- 3 Reliable Performance**
Ultra bright, 10 year LEDs are coupled with color matched red or green diffusers for long lasting exit illumination that is uniform and well defined.
- 4 Sustainable Efficiency**
Energy efficient with environmentally friendly Lithium Iron Phosphate battery.
- 5 Versatile Functionality**
Choose from a full suite of feature rich options including Spectron® Self-Diagnostics with remote laser tester to ensure life safety code compliance.

Exit In Style

Curvista sets a new standard in emergency exit signage, seamlessly blending cutting-edge safety technology with elegant architectural design.

Its distinctive, multi-curved face, complemented by a matching curved canopy, creates a visually striking yet harmonious presence in any interior.
