# CEILEO

## LED RECESSED CANOPY LIGHTING

Ceileo is a commercial grade LED recessed canopy luminaire that offers versatility through two different optical technologies, Strike and Micro Strike, which affords the customer the ability to select the ideal distribution for their specific requirements. Now available with a lumen switchable dial option for even more on-site flexibility. Available in round or square form factors.

MICRO **STRIKE** | **OPTICS** | **STRIKE**

Consuming only 25 to 50 watts, the Ceileo is designed to replace up to 250 watt HID systems, while reducing maintenance by delivering over 200,000 hours of projected life.

### BENEFITS OF THE CEILEO

- Advanced optics for even light distribution and low glare appearance
- Lumen dimmable dial option, allowing for easy, on-site light output adjustments
- Specialty distributions available for unique applications or specific requirements

## Advanced Optics

### MICRO STRIKE

Micro Strike Optics offer five distinct distribution patterns to illuminate a variety of applications. This optic maximizes target zone illumination with improved uniformity. This, combined with the high lumens per watt, make MicroStrike the perfect choice for most common applications.

### OPTICS STRIKE

Strike Optics allow for maximized spacing and are available in eleven distribution patterns. This makes Strike Optics ideal for unique or specialty applications.

### ORDERING GUIDE
