

# ARM-CRD-6-S - Square Pole Arm

CIMARRON ACCESSORY

**WARNING:** To avoid damaging supply wiring, drill all necessary holes in poles, arms, or mounting brackets BEFORE pulling supply wires.

**Mounting Notes:**

1. Position arm to pole and hole pattern aligned to pre-drilled holes in pole.
2. Position nut plate (supplied with fixture) inside pole to line up with arm.
3. Consulting fixture instructions, install (2) 1/2-13 bolts, through (2) flat washers, (2) split washers, then through the two 0.57" holes in the arm to secure to pole. Tighten to 35-40 ft-lbs torque.
4. Apply gasket to arm end.
5. Align mounting holes on fixture to holes in gasket.
6. Install (4) 3/8-16 bolts, (4) 3/8 split washers, (4) 3/8 flat washers through mounting holes, on inside of fixture, and secure to arm. Tighten to 15-20 ft-lbs torque.
