# MICROSTRIKE | STRIKE

#### **FEATURES**

- Low profile LED floodlighting luminaire with a variety of NEMA distributions for lighting
  applications such as accent lighting, sign lighting, distribution center, and general area lighting.
- Featuring two different optical technologies, Strike and Micro Strike Optics, which provide the best distribution patterns for retrofit or new construction
- Vibration rated for high vibration applications including bridges and overpasses. All housing sizes are rated for 1.5G
- Control options including photo control, occupancy sensing, NX Lighting Controls, Wiscape and 7-Pin with networked controls
- New customizable lumen output feature allows for the wattage and lumen output to be customized in the factory to meet whatever specification requirements may entail
- · Field interchangeable mounting provides additional flexibility after the fixture has shipped

#### **CONTROL TECHNOLOGY**

## **SPECIFICATIONS**

#### CONSTRUCTION

- Die-cast housing with hidden vertical heat fins are optimal for heat dissipation while keeping a clean smooth outer surface
- Corrosion resistant, die-cast aluminum housing with 1000 hour powder coat paint finish
- External hardware is corrosion resistant

#### **OPTICS**

- Micro Strike Optics (132, 264, 360, or 540 LED counts) maximize uniformity in retrofit applications and come standard with midpower LEDs which evenly illuminate the entire luminous surface area to provide a low glare appearance. Catalog logic found on page 2
- Strike Optics (36, 72, 108, or 162 LED counts) provide best in class distributions and maximum pole spacing in new construction applications with high powered LEDs. Strike optics are held in place with a polycarbonate bezel to mimic the appearance of the Micro Strike Optics so both solutions can be combined on the same application. Catalog logic found on page 3
- One-piece silicone gasket ensures a weatherproof seal

#### INSTALLATION

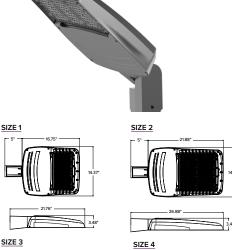

- Mounting patterns for each arm can be found on page 8
- All mounting hardware included
- Knuckle arm fitter option available for 2-3/8" OD tenon
- Control options are only available on the knuckle mount option and must be installed on a vertical tenon
- Micro Strike flood configurations may be aimed up, but must have at least a 30° to allow for water to shed.

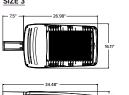

#### **ELECTRICAL**

- Universal 120-277 VAC or 347-480 VAC input voltage, 50/60 Hz
- Ambient operating temperature -40°C to 40°C
- Drivers have greater than 90% power factor and less than 20% THD
- LED drivers have output power over-voltage, over-current protection and short circuit protection with auto recovery
- Field replaceable surge protection device provides 20kA protection meeting ANSI/ IEEE C62.41.2 Category C High and Surge Location Category C3; Automatically takes fixture off-line for protection when device is compromised

#### CONTROLS

- Photo control, occupancy sensor programmable controls and Zigbee wireless controls available for complete on/off and dimming control
- Please consult brand or sales representative when combining control and electrical options as some combinations may not operate as anticipated depending on your application
- 7-pin ANSI C136.41-2013 photocontrol receptacle option available for twist lock photocontrols or wireless control modules (control accessories sold separately)
- 0-10V Dimming Drivers are standard and dimming leads are extended out of the luminaire unless control options require connection to the dimming leads. Must specify if wiring leads are to be greater than the 6" standard
- NX Lighting Controls™ available with in fixture wireless control module, features dimming and occupancy sensor
- LightGRID+ available with in fixture wireless control module, features dimming and occupancy sensor. Also available in 7-pin configuration

 Listed to UL1598 and CSA C22.2#250.0-24 for wet locations and 40°C ambient temperatures

1.837

- 1.5 G rated for ANSI C136.31 high vibration applications
- Fixture is IP65 rated
- Meets IDA recommendations using 3K CCT configuration at 0 degrees of tilt
- This product meets federal procurement law requirements under the Buy American Act (FAR 52.225-9) and Trade Agreements Act (FAR 52.225-11). See Buy America(n) Solutions (link to <a href="https://www.currentlighting.com/resources/america-solutions">https://www.currentlighting.com/resources/america-solutions</a>)
- DLC® (DesignLights Consortium Qualified), with some Premium Qualified configurations. Please refer to the DLC website for specific product qualifications at www.designlights.org

#### WARRANTY

• 5 year warranty

#### **NX LIGHTING CONTROLS FREE APP**

#### CONTROLS TECH SUPPORT 800-888-8006 (7:00 AM - 7:00 PM)

The NX Lighting Controls App is free to use mobile application for programming both NX Lighting Controls System or Standalone Bluetooth Sensors. The mobile app allows you to configure devices, discover and setup wireless enable luminiares and program NX system settings.

Apple App: https://apps.apple.com/us/app/nx-lighting-controls/id962112904

 $\textbf{Google Play: } \underline{\text{https://play.google.com/store/apps/details?id=io.cordova.NXBTR\&hl=en\_US\&gl=US} \\$

#### **PROGRAMMED CONTROLS**

ADD-AutoDim Timer Based Options

 Light delay options from 1-9 hours after the light is turned on to dim the light by 10-100%. To return the luminaire to its original light level there are dim return options from 1-9 hours after the light has been dimmed previously.

EX: ADD-6-5-R6

| ADD Control Options | Configurations Choices | Example Choice Picked                    |
|---------------------|------------------------|--|
| Auto-Dim Options    | 1-9 Hours              | 6 - Delay 6 hours                        |
| Auto-Dim Brightness | 10-100% Brightness     | 5 - Dim to 50% brightness                |
| Auto-Dim Return     | Delay 0-9 Hours        | R6 - Return to full output after 6 hours |

#### ADT-AutoDim Time of Day Based Option

 Light delay options from 1AM-9PM after the light is turned on to dim the light by 10-100%. To return the luminaire to its original light level there are dim return options from 1AM-9PM after the light has been dimmed previously.

EX: ADT-6-5-R6

| ADD Control Options | Configurations Choices | Example Choice Picked             |
|---------------------|------------------------|-----------------------------------|
| Auto-Dim Options    | 12-3 AM and 6-11 PM    | 6 - Dim at 6PM                    |
| Auto-Dim Brightness | 10-100% Brightness     | 5 - Dim to 50%                    |
| Auto-Dim Return     | 12-6 AM and 9-11P      | R6 - Return to full output at 6AM |

### MOUNTING

#### **AAU- ADJUSTABLE ARM FOR POLE MOUNTING**

Rotatable arm mounts directly to pole. Compatible with drill patterns from 2.5" to 4.5" (S2 or B3). For round poles add applicable suffix (2/3/4/5). Rotatable in 15° aiming angle increments. Micro Strike configurations may be aimed up but must have a 30° tilt to shed water. Strike configurations have a 30° aiming limitation.

# K-KNUCKLE

Knuckle mount 15° aiming angle increments for precise aiming and control, fits 2-3/8" tenons or pipes. Micro Strike configurations may be aimed up but must have a 30° tilt to shed water. Strike configurations have a 30° aiming limitation.

# **T-TRUNNION**

Trunnion for surface and crossarm mounting using (1) 3/4" or (2) 1/2" size through bolts. Micro Strike configurations may be aimed up but must have a 30° tilt to shed water. Strike configurations have a 30° aiming limitation.

## **ADDITIONAL INFORMATION (CONTINUED)**

#### PROGRAMMED CONTROLS

ADD-AutoDim Timer Based Options

• Light delay options from 1-9 hours after the light is turned on to dim the light by 10-100%. To return the luminaire to its original light level there are dim return options from 1-9 hours after the light has been dimmed previously.

#### EX: ADD-6-5-R6

| ADD Control Options | Configurations Choices | Example Choice Picked                    |
|---------------------|------------------------|--|
| Auto-Dim Options    | 1-9 Hours              | 6 - Delay 6 hours                        |
| Auto-Dim Brightness | 10-100% Brightness     | 5 - Dim to 50% brightness                |
| Auto-Dim Return     | Delay 0-9 Hours        | R6 - Return to full output after 6 hours |

ADT-AutoDim Time of Day Based Option

• Light delay options from 1AM-9PM after the light is turned on to dim the light by 10-100%. To return the luminaire to its original light level there are dim return options from 1AM-9PM after the light has been dimmed previously.

#### EX: ADT-6-5-R6

| ADD Control Options | Configurations Choices | Example Choice Picked             |
|---------------------|------------------------|-----------------------------------|
| Auto-Dim Options    | 12-3 AM and 6-11 PM    | 6 - Dim at 6PM                    |
| Auto-Dim Brightness | 10-100% Brightness     | 5 - Dim to 50%                    |
| Auto-Dim Return     | 12-6 AM and 9-11P      | R6 - Return to full output at 6AM |
