

FEATURES

- Simplistic modular design with interchangeable lenses and end caps
- Available in semi-recessed, flush mount and direct/indirect configurations
- Easy removal of lens allows access to electrical components for modular replaceability
- Luminaire installs in three easy steps without disassembling the fixture
- Slender profile meets ADA requirements for wall mounted product
- Wide lumen package offering for a variety of wall mount applications including stairwell, corridor, and vanity
- Best in class efficacy and reduced input wattage; excellent energy savings compared to legacy fluorescent products

CONTROL TECHNOLOGY

Surface Mount Cross Section (FR, SB, SF lenses)
See additional dimensions on pages 5–6

CWM with DIS lens and FA end cap options

SPECIFICATIONS

CONSTRUCTION

- The luminaire chassis is designed from anodized extruded aluminum
- End caps are injection molded or die cast for a finished appearance and provide smooth edges for ease of handling
- Fixture provides easy access to electrical components via removal of lens and chassis.

OPTICS

- High efficiency acrylic lens features linear prisms for high performance without glare or pixelation
- Optional 1/8" 3form material can be added as a decorative element or to match existing 3form features in various applications. For custom selections please consult factory

INSTALLATION

- Semi-recessed or surface mounting options
- Semi-recessed mounting option requires the use of a 4-gang junction box for proper mounting and assembly
- A Snap-Tite conduit adapter is recommended for conduit installation to surface mount option

CONTROLS

- Optional SpectraSync™ Color Tuning Technology offers a Tunable White solution and integrates seamlessly into a variety of control systems.
- NX Lighting Controls provides options for standalone and networked integrated sensor with wired or wireless connectivity for NX system deployments
- NX is available in U.S., Canada and Mexico. For other locations consult factory

CERTIFICATIONS

- Built to UL 1598 and 2108 standards and bear appropriate cCSAus labels
- Damp Location labeling is standard
- Emergency equipped fixtures are listed to UL924 standards for emergency situations
- Adheres to LM79, LM80, and TM21 industry standards

WARRANTY

- 5 year warranty

<input type="checkbox"/> OW	Wattstopper	Occupancy Sensor	No	Yes
<input type="checkbox"/> HFU	Wattstopper	High Frequency Ultrasonic Occupancy	No	Yes

Notes:

- Available with ED driver only, N/A with ELL14 (2') or SR (2'&4') options
- Based on the 4000K with FR lens. See CWM Performance Data Sheet for extended lumen data
- XW only available with 4'
- LW with SR mounting not compatible with through wiring on 4' version
- ML not available with SR mounting option. ML Direct/Indirect only available in 2'
- Not available on Direct/Indirect
- Standard for Direct/Indirect
- Battery backup only available with SM mounting option

- LVC and Pull Switch only available with Direct/Indirect lens option
- LVC and Pull Switch available in 120V only
- LVC and Pull Switch available in Surface Mount only
- NX In-Fixture Control Options:**
- NX controls can only be used with NX Sensor options
- Not available with LVC or Pull Switch
- NX is available with ED and ED1 drivers only
- Third-Party Control Options:**
- HFU and OW only available with SM mounting option
- Not recommended for stairwell applications
- Only available with ED driver

ORDERING GUIDE (CONTINUED)

LVC SELECTION CHART

The Low Voltage Controller (LVC) option allows control of the luminaire functions from a patient pillow switch, bed side rail or wall switch with normally-open momentary dry contacts. Depending on the number of modes to be controlled, various control options are available.

Independent	I	Dedicated On/Off control for a single load.
Sequential	S	On/Off Control of two loads by sequentially cycling through them
Step dim	ST	Stepped light levels in 25% increments with each toggle of the low voltage switch.
Smooth dim	SM	Smooth increase in light level from a starting point of 25% by continuing to press the switch. When released, pressed and held again, the light level decreases until the switch is released.

LVC ORDERING CODE	FUNCTION	
	AMBIENT (top compartment)	READING (bottom compartment)
LVC1		I
LVC21	I or S*	I or S*
LVCDST4	ST	I
LVCDST5	I	ST
LVCDST6	ST	ST
LVCDSM4	SM	I
LVCDSM5	I	SM
LVCDSM6	SM	SM

*The selection of Individual (I) or sequential (S) control is determined by in-field connections at the control(s).

CONTROLS

NX Lighting Controls:

Supports both indoor and outdoor applications in a variety of deployment options- wired, wireless, hybrid.
Integrates with and enables a wide array of luminaires including those with SpectraSync Color Tuning Technology.

NX INTEGRATED CONTROLS REFERENCE									
NX Option	Sensor	Networkable	Scheduling	Occupancy	Daylight Harvesting	0–10V Dimming	On/off Control	Bluetooth® App Programming	Commissioning
<u>NX Networked – Wired</u>									
NXE	N/A	Yes	Yes	No	No	Yes	Yes	Requires NXBTC dongle ¹	On-site

¹ NXBTC needs to be plugged into an available SmartPORT on the fixture network

SpectraSync™ Color Tuning Technology:

Control your space based on the needs of the application, specific activities throughout the day and preferences of the occupants with distinct SpectraSync Color Tuning Technologies.

SPECTRASYNCH COLOR TUNING TECHNOLOGY		
Mode	Kelvin Range	Description
Tunable White	2700K–6500K	Offers users the ability to tailor CCT to their personal preference, enhancing task visibility, material and colors or the aesthetics of the space

SpectraSync Tunable White

Available in 2765T (2700K–6500K). Requires two 0–10V controllers, one for intensity and one for CCT.
Minimum 5% dimming.

SpectraSync Tunable White luminaires are provided with two 0–10V circuits. The violet and pink circuit is for wiring to any qualified 0–10V controller for dimming. The violet/white and grey/white circuit is for wiring to any qualified 0–10V controller for Tunable White CCT control.

Controller Manufacturer Data

SpectraSync Tunable White was designed to be used with sinking style dimmers (provided by others) and is compatible with:

- NX Lighting Controls Room Controller (NXRC) and In-fixture Controllers (NXFM)
- Lutron: DDTV, DVSTV, and NFTV dimmers
- Wattstopper: ADF120277 and CD4BL (Titan) dimmers

To enable scheduling and for use with NX wall control preset stations please refer to NX SpectraSync technical sheet.
