CHANNEL LETTER LIGHTING SYSTEMS

Our smallest module ever, featuring best-in-class loading and groundbreaking flexibility **Tetra®Atom** — the unique 24V LED system designed for channel letters as shallow as 1 inch in depth delivers incredibly uniform light, installs easily and operates efficiently. **Tetra®Atom** also features constant current technology, for even light across the entire run without the need for center tapping.

## Powerful OptiLens™ X

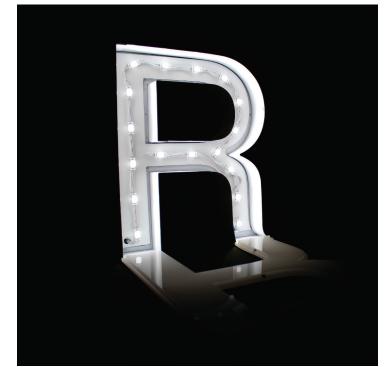

**Tetra® Atom** features OptiLens<sup>™</sup> X, our patented technology that allows for a true 165° x 140° viewing angle. This exclusive technology redirects otherwise wasted light to the sign face, making sure your signs shine.

#### Best-in-class loading

Load 327 **Tetra® Atom** modules per 100W power supply, more than **twice as much** as some competitors' solutions. Half the power supplies means half the material and labor costs: only with Tetra®.

#### Tetra® for every sign

Designed to meet the evolving needs of sign shops, **Tetra® Atom** delivers bright, uniform light in shallow channel letters, routed acrylic block letters, and halo-lit applications as shallow as 1" deep.

#### Tetra®Atom Features

- Wide 165° x 140° beam angle
- Efficacy: 124 lm/W
- 24 Volt DC, Class 2 (UL), Class III (IEC)
- UL Wet Rated & IP66
- 10-year limited warranty

## Tetra® Atom Spacing

| Can Depth   | Coverage   | Multiple Strings |
|-------------|------------|------------------|
| 1" (25mm)   | 2" (51mm)  | 1.5" (38mm)*     |
| 1.5″ (38mm) | 4" (102mm) | 2.5" (64mm)      |
| 2" (51mm)   | 6″ (152mm) | 5" (127mm)       |
| 3" (76mm)   | 7″ (178mm) | 5" (127mm)       |

\*Face material must be at least 3/16" (5mm) thick

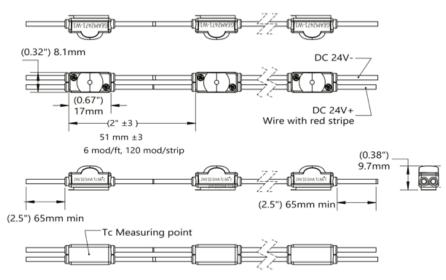

## **Total Reliability**

To ensure every **Tetra®** Atom installation will operate brilliantly for years, we perform the most extensive, stringent testing in the industry. We test the LED, water and dust ingress protection, sub-system and complete system at our in-house and independent laboratories around the world. Validation of our designs, components, products and processes include high temperature, high humidity and accelerated life testing.
