### EXCELLENT APPEARANCE & VISIBILITY

- Robust LED system design enables high luminous intensity over long product life
- Efficient optical system minimizes power consumption while providing excellent uniformity and viewing angles
- New! Single piece transparent front window with internal masking to prevent:
  - icons display from being readily visible when not in operation
  - scratches and abrasions compared with external silk screen technology
- Bright and clear icons
- New or retrofit use
- Fully uniform look

### OUTSTANDING RELIABILITY & ROBUST OPERATION

- Internal conflict monitor preventing walk and don't walk indications to light up at the same time (PS7-CFC1-26A only)
- Individual power supply drives each display to ensure proper indication
- Over-molded electrical connectors providing moisture and dust protection
- Optimal thermal management for longer life.
- Provides performance under extreme field temperature conditions.

### MEETS RIGOROUS CERTIFICATION & TESTING STANDARDS

- Intertek ETL Verified compliant (PS7-CFC1-26A, PS6-WFM3-26A, PS6-PFH1-26A only)
- EPACT 2005 compliant
- Caltrans approved - Draft Specifications dated Dec. 2008 (PS7-CFC1-26A-22 only)
- Using MIL-STD-810F and NEMA 250-1991 Type 4 (PS7-CFC1-26A-22 only) for environmental robustness, passed reliability and qualification testing including high temperature, high humidity cycling (HTHH for 1,000 hours)
- Production quality compliant to Current Six Sigma requirements
- Compliant with ITE PTCSI LED Signal Modules adopted Aug. 4, 2010 (PS7-CFC1-26A, PS6-WFM3-26A, PS6-PFH1-26A only)
