

Decorative AAL Base Covers

BASE COVER OPTIONS FOR AAL LEGACY POLES

SPECIFICATIONS

CONSTRUCTION

- Two piece base covers are cast #356 aluminum that fit over standard 4" or 5" round poles. Covers are attached with stainless steel hardware. Consult your AAL catalog for complete details on round poles.

WARNINGS

- Caution must be exercised in the selection of a design wind speed when the pole is to be installed in a special wind region (as indicated by the wind map) or in an area where wind speed is unpredictable
- AAL recommends consulting a local engineer when the pole is to be installed in an area that may be subject to extreme weather and exposure
- Poles installed on structures such as buildings and bridges may be subjected to vibration, oscillations, and other fatigue effects which are not covered by the AAL warranty

- The use of banners or other appendages can severely affect the loading of a pole. No banner or other appendage should be attached to an AAL pole unless approved by AAL
- If the products are to be used on an existing foundation or on other structures, the customer assumes all responsibility for the structural integrity of the existing foundation, anchorage or structures and all the consequences arising therefrom.
- AAL decorative bases require modifications to the pole, allowing for fit and proper install. AAL Decorative Bases are not intended for existing poles. Please consult your Current contact to review options for existing poles.**
