FEATURES

- A versatile, pedestrian-scale decorative luminaire designed for ultimate flexibility in LED pendant and catenary lighting applications
- Featuring two different optical technologies, Strike and Micro Strike Optics, which provide the best distribution patterns for retrofit or new construction
- Shade options available to enhance the product design and match any application
- Features decorative die-cast aluminum cage

Pierwalk

Pierwalk Catenary Mount
(Catenary mount by others)

	WEIGHT		EPA (FT2) TOTAL
	SINGLE SHADE	TWO SHADES	
SLD2	15.05lbs / 6.83 kgs	17.70 lbs / 8.02 kgs	0.77 - 0.94

SPECIFICATIONS

CONSTRUCTION

- Driver housing is made of die-cast aluminum
- Shade shall be made from a one-piece aluminum spinning
- Corrosion resistant, die-cast aluminum housing with 1000 hour powder coat paint finish
- For pendant and catenary configurations, the housing is designed to be mounted in place with a stainless-steel safety pin and then permanently held in place with four stainless steel bolts
- External hardware is stainless steel
- Optional frosted lens is made from a durable acrylic material

OPTICS

- Micro Strike Optics (80L LED count) maximize uniformity in applications and come standard with mid-power LEDs which evenly illuminate the entire luminous surface area to provide a low glare appearance. Catalog logic found on page 2
- Strike Optics (18L LED count) provide best in class distributions and maximum pole spacing in new applications with high powered LEDs. Strike optics are held in place with a polycarbonate bezel to mimic the appearance of the Micro Strike Optics so both solutions can be combined on the same application. Catalog logic found on page 3
- Both optics maximize target zone illumination with minimal losses at the house-side, reducing light trespass issues. Additional backlight control shields can be added for further reduction of illumination behind the pole

- One-piece silicone gasket ensures a weatherproof seal
- All optics are field and factory rotatable
- Listed to UL1598 and CSA22.2 #250.0-24 for wet locations and 40C ambient temperatures

ELECTRICAL

- Universal 120-277 VAC or 347-480 VAC input voltage, 50/60 Hz
- Ambient operating temperature -40°C to 40°C
- Drivers have greater than 90% power factor and less than 20% THD
- LED drivers have output power over-voltage, over-current protection, and short circuit protection with auto recovery
- Field replaceable surge protection device provides 20kA protection meeting ANSI/ IEEE C62.41.2 Category C High and Surge Location Category C3; Automatically takes fixture off-line for protection when device is compromised

CONTROLS

- 0-10V Dimming Drivers are standard and dimming leads are extended out of the luminaire unless control options require connection to the dimming leads. Must specify if wiring leads are to be greater than the 6" standard
- The housing is designed for an optional twist lock photo control receptacle

CERTIFICATIONS

- Listed to UL1598 and CSA C22.2#250.0-24 for wet locations and 40°C ambient temperatures
- 1.5 G rated for ANSI C136.31 high vibration applications
- Luminaire light engine is IP65 rated
- Meets IDA recommendations using 3K CCT configuration with no lensing
- This product qualifies as a "designated country construction material" per FAR 52.225-11 Buy American-Construction Materials under Trade Agreements effective 04/23/2020.

WARRANTY

- 5 year warranty
